

The background features a large, dark gray triangle pointing upwards, which occupies the right half of the frame. To its left, there is a light gray triangle pointing downwards, creating a central white triangular area. A thin black line runs diagonally from the top left towards the center, separating the light gray triangle from the white area.

MINIMALIST GRAYSCALE PITCH DECK

Here is where your presentation begins

PROBLEM

Mercury is the closest planet to the Sun and the smallest one in the Solar System—it's only a bit larger than the Moon. The planet's name has nothing to do with the liquid metal

THEM

Mercury is the closest planet to the Sun and the smallest one in the Solar System. Mercury's name has nothing to do with the liquid metal

US

Venus has a beautiful name and is the second planet from the Sun. It's terribly hot—even hotter than Mercury. It's extremely poisonous
